SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Problem Solving

HARD SKILLS

- Backend Architecture
- RESTful API Design
- Database Modeling
- System Optimization
- DevOps & Deployment

LANGUAGES

- English (Excellent)
- Romanian (Native)
- German (Beginner)
- Italian (Excellent)

PROFILE

A dynamic and detail-oriented Full-Stack Developer with a robust background in both front-end and back-end technologies, I possess a deep understanding of the full software development lifecycle and a commitment to mastering the latest industry trends and technologies

WORK EXPERIENCE

GRAND DIGITAL

2023 - PRESENT

Full Stack Developer

Django Rest, PHP, Next.js, Hubspot, DevOps

- Built an internal and enterprise tool that automated WordPress maintenance workflows.
- Developed multiple custom WordPress plugins and internal maintenance applications.
- Integrated HubSpot and developed/maintained a HubSpot app.
- Resolved critical production issues and improved system stability.

Koprious

2016 - 2021

Full Stack Developer

Java, Python, React, DevOps, Spring Boot

- Developed and maintained scalable web applications as a Full Stack Developer, working on RESTful API development, payment system integrations, and database design. Led process optimization initiatives to improve system performance and efficiency. Managed DevOps tasks including deployment, CI/CD pipelines, and server maintenance. Collaborated with cross-functional teams to deliver high-quality, secure, and maintainable software solutions.

Neuron

2014 - 2016

Junior Frontend Developer

Spring boot, React

- Worked on frontend development and supported backend implementation in web applications. Contributed to UI development, feature implementation, and API integration while collaborating with senior developers in an agile environment.

PERSONAL PROJECTS

Snaptryx

NextJS, Django Rest, Paylaod, Kubernetes

- Build a web automation platform for screenshots, visual difference, monitoring and pdf custom-template.
Link: <https://snaptryx.com>

Security Pulse

NextJS, Django Rest, Kubernetes

- Build a multi-tenant WordPress security platform for vulnerability scanning, attack detection, automated backups and PDF reporting
Link: <https://security-pulse.de>

EDUCATION

Digital Career Institute

2021 - 2022

Professional Development

- Completed a certified program focused on backend engineering, RESTful API architecture, and database design to formally validate and align my senior-level experience with German industry standards.

Kata Academy

2012 - 2014

Java Certification Program and Web Development

- Advanced training in building scalable backend systems using Java, RESTful services, React, and database integration.

State University of Moldova

2009 - 2013

Faculty of Mathematics & Computer Science
